Executive Biography

Josh Peterson

Vice President and Head of Worldwide
Product Marketing for HP
Workstations
Personal Systems, HP Inc.

Josh Peterson is currently Head of Product Management for HP's Workstation and Immersive Computing business. He has worldwide product portfolio responsibility for desktop workstations, mobile workstations, immersive computing, and all related accessories.

Peterson has spent over 15 years at HP and has led product management, strategic alliances, and fostering dedicated innovation efforts across multiple product categories including workstations, mobile workstations, consumer storage, and optical disk standards/technologies.

Peterson holds a Bachelor's Degree in Mechanical Engineering from the University of Colorado and a Master's Degree in Business Administration from Colorado State University.

Josh is located in Fort Collins, CO
