

Executive Biography

Nuno Neves

FICEP S3 Director

Nuno Neves is the entrepreneur who co-founded FICEP S3, an innovative and visionary project located just a few kilometres away from Barcelona. Graduated with an Associates Degree as well as a diploma in Automotive Master Technology from Ohio Technical College, Neves completed studies at Universal Technical Institute (BMW STEP) and Stanford University, where he also volunteered as a mentor for the Technology Entrepreneurship– E145e of the Math Science and Engineering Department. He worked in companies such as BMW, before starting his own project, FICEP S3, which is now one of the leading Industry 4.0 Spanish companies which utilizes the latest in 3D design and manufacturing technology to design and build custom items, parts and machinery for a wide range of applications for Automotive, Aerospace, Industrial, Design Industries or Product Manufacturing, amongst others.

Neves is always looking for new challenges that allow him to continue to develop technologies and processes that provide customers the most cutting-edge products in record time.
