

## Executive Biography

# Peter Oberparleiter

CEO

GKN Powder Metallurgy

Peter Oberparleiter is the CEO of GKN Powder Metallurgy since October 2012. His broad mix of experience and record of success enable him to lead GKN Powder Metallurgy to the next level of performance and innovation. To stimulate development, innovation, and rapid expansion of Additive Manufacturing Technologies, Dr. Oberparleiter created an “Additive Manufacturing Startup” within GKN Powder Metallurgy which has led to the first connected printer network within the metalworking industry.

Throughout Dr. Oberparleiter’s career, which started at GKN in 1987, he has held various operational and finance roles in GKN Sinter Metals Europe. His outstanding performances led to his appointment to the President of Sinter Metals Europe in 2007. Soon in 2009, he moved to GKN Driveline as the Global Director of Finance and Information Technology.

Oberparleiter holds a Ph.D. in Business Economics from University Innsbruck in Austria, and University Ca Foscari in Venice, Italy.
