

HP Tango Family

The first smart home printer¹

Designed with life in mind

Today is a 24/7 balancing act, from managing hectic work schedules to making time for family. And there's not always enough time to get everything done, especially when it comes to everyday printing needs. Thankfully, there's a smart printer that acts more like a personal assistant—whether on the go or at home.

Introducing the HP Tango Family. Welcome to the age of smart printing.

Smart and simple

The seamless setup experience you expect from a smart device—no USB ports or drivers required. Just download the HP Smart app, connect, and you're ready to go on your smartphone, laptop, or tablet—or even your voice assistant.^{2,3,4}

More connected than ever

The first printer with a cloud-based, two-way network connection lets you print, scan, and copy, from any device, anywhere—and the HP Smart app tells you when the job is done.^{1,2}

Save up to 50% on ink and never run out

Tango automatically orders ink when you're running low, and you pay less than 5 cents per page with HP Instant Ink.⁵ Save up to 50% on ink and never run out.^{6,7}

Your photos print free

Only on Tango—when you enroll in HP Instant Ink, photos up to 5" x 7" (13 x 18cm) printed from your smartphone are free.⁸ You hit print, and the photos are free.⁸

Smart and simple

Seamless setup

Get started fast with easy setup. The app guides your every step, including ink and paper installation. Simply download the HP Smart app, connect to Wi-Fi, add ink and paper, and share your printer across your devices.²

1. "Smart Home Printer" defined using the following criteria: (a) Designed exclusively for mobile devices, and driven by an OEM printer app, like other IoT devices. This HP Tango product is "designed exclusively for mobile devices." It requires a mobile device for install. (b) Device uses both local Wi-Fi and cloud cell phone data connectivity for two-way connection with OEM app to control printer and get status. (c) Offers voice support for Amazon Alexa, the Google Assistant, and Microsoft Cortana. (See Keypoint Intelligence report for details: keypointintelligence.com/HPVoicePrint). (d) Unique in-class in that it lacks a screen/display, buttons/LEDs (other than the power button), and a USB port. Smart home devices often lack screen/display and buttons/LEDs and USB port (since they are designed for wireless and control by OEM provided app on smart device like phone or tablet). Compared to the majority of in-class letter-size color desktop inkjet printers and all-in-ones <\$150 USD. Claim based on HP internal research of printer manufacturers' published specifications and Keypoint Intelligence—Buyers Lab March 29, 2018, study commissioned by HP.
