Executive Biography

Ramon Pastor

Head of HP 3D Printing & Digital Manufacturing
HP Inc.

Ramon Pastor is the Head of HP's 3D Printing & Digital Manufacturing business, he is responsible for the growth of the global business unit, which aims to drive the Fourth Industrial Revolution. Ramon previously served as the Vice President and General Manager of HP's 3D Printing Plastic business, including responsibility of HP's 3D Multi Jet Fusion line of solutions with teams in Barcelona, Spain and Vancouver, US.

Since joining HP in 1992, Ramon has held a variety of positions in Operations, Research & Development, Marketing and Business Management. Spending a majority of his time in HP's Large Format Printing Business, Ramon rose from strategic marketing manager to worldwide R&D director, before becoming GM leading the businesses technical and creative markets.

Ramon holds a master's degree in engineering from Universitat Politècnica de Catalunya, a business degree from IESE Business School and a Bachelor of Arts degree, as well as formal training in product development and strategy, from INSEAD and the Massachusetts Institute of Technology (MIT).

Ramon is based in Barcelona, Spain.
