Biography

Daniel Colling, BSN, BSc, RN

Global Head Healthcare Industry Solutions & Practice

HP Inc.

Daniel Colling, is HP Inc.'s Global Head for Healthcare Industry Solutions & Practice responsible for leading HP's healthcare strategy, technology, and solutions designed around enabling health systems to achieve their initiatives for improving patient safety, clinical efficiency, care coordination and achieving business value from connected care between care providers and patients.

In his 20+ years in healthcare, Daniel has worked in Clinical Executive and IT Roles in health systems in the U.S. and Canada to achieve their initiatives on patient safety, improved clinical workflows, care coordination, telehealth, interoperability, 3D print and VR, and digitization transformation to achieve EMRAM Stage 7 supporting best practices for clinical decision support for the entire care team including the patient. Daniel has presented nationally and internationally as a public policy advocate for the role technology plays in improving the quality, safety, and efficiency of patient care. Daniel holds BSc degrees in Nursing and Information Systems and Architecture from the University of British Columbia, maintains CompTIA Security+ certification, and actively participates as a member of the CNA-AIIC, ANA, and HIMSS.
