Designed for how you work.
The HP EliteBook 835 is built for how you work today. This easy to carry ultralight and thin business PC comes with an 85% screen-to-body ratio and a quiet and comfortable keyboard to work on.

- Dedicated power key
- Programmable key
- Redesigned backlit keyboard
- Rubber dome keys

Work with peace of mind.
Security features from HP work together to create an always-on, always-acting, resilient defense. From the BIOS to the browser, above and below the OS, these constantly evolving solutions help protect your PC from threats.

- Optional HP Sure View Reflect
- HP Sure Sense
- Optional HP Privacy Camera
- AMD Memory Guard

Power, connectivity, long battery life.
How we work is evolving quickly. Help drive connectivity and productivity with the next generation AMD Ryzen™ PRO processor, optional 4G LTE, and long battery life.

World's most secure and manageable PCs

RECOMMENDED ACCESSORIES

- HP E24 G4 FHD Monitor
- HP USB-C Dock G5
- HP Wireless Premium Mouse
- HP Wireless Premium Keyboard
- HP Business Slim Top Load

| Weight             | Starting at 1.3 kg; 2.86 lb (Weight will vary by configuration) |
| Operating System   | Windows 10 Pro/Home 64²⁸ |
FOOTNOTES

1. Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. AMD's numbering is not a measurement of clock speed.

2. HD content required to view HD images.

3. Resolutions are dependent upon monitor capability, and resolution and color depth settings.

4. HP Sure View integrated privacy screen is an optional feature that must be configured at purchase and is designed to function in landscape orientation.

5. Actual brightness will be lower with touchscreen or Sure View.

6. Due to the non-industry standard nature of some third-party memory modules, we recommend HP branded memory to ensure compatibility. If you mix memory speeds, the system will perform at the lower memory speed.

7. For storage drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 30 GB (for Windows 10) is reserved for system recovery software.

8. Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited. The specifications for Wi-Fi 6 (802.11ax WLAN) are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11ax WLAN devices. Only available in countries where 802.11ax is supported.

9. WWAN module is an optional feature, requires factory configuration and requires separately purchased service contract. Check with service provider for coverage and availability in your area. Connection speeds will vary due to location, environment, network conditions, and other factors. 4G LTE not available on all products, in all regions.

10. The term “10/100/1000” or “Gigabit” Ethernet indicates compatibility with IEEE standard 802.3ab for Gigabit Ethernet, and does not convey actual operating speed of 1 Gb/s. For high-speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required. WWAN is an optional feature, requires factory configuration and separately purchased service contract. Check with service provider for coverage and availability in your area. 4G LTE not available on all products, in all regions.

11. Sold separately or as an optional feature.

12. Internet access required.

13. HP Fingerprint Sensor sold separately or as an optional feature.

14. Absolute firmware module is shipped turned off and can only be activated with the purchase a license subscription and full activation of the software agent. License subscriptions can be purchased for terms ranging multiple years. Service is limited, check with Absolute for availability outside the U.S. Certain conditions apply. For full details visit: https://www.absolute.com/about/legal/agreements/absolute/

15. HP Drive Lock & Automatic Drive Lock is not supported on NVMe drives.

17. HP Sure Sense requires Windows 10 Pro or Enterprise. See product specifications for availability.

18. HP Sure Start Gen6 is available on select HP PCs.

19. HP Sure Run Gen4 is available on select Windows 10 based HP Pro, Elite and Workstation PCs with select Intel® or AMD processors.

20. HP Sure Recovery Gen4 is available on select HP PCs and requires an open network connection. You must back up important files, data, photos, videos, etc. before using HP Sure Recovery to avoid loss of data. Network-based recovery using Wi-Fi is only available on PC’s with Intel Wi-Fi Module.

21. HP Secure Erase for the methods outlined in the National Institute of Standards and Technology Special Publication 800-88 “Clear” sanitation method. HP Secure Erase does not support platforms with Intel® Optane™

22. HP BIOSphere Gen5 is available on select HP and Elite PCs. See product specifications for details. Features may vary depending on the platform and configurations.

23. HP Client Security Manager Gen5 requires Windows and is available on the select HP Pro and Elite PCs.

26. Availability may vary by country.

27. Actual battery Watt-hours (Wh) will vary from design capacity. Battery capacity will naturally decrease with shelf life, time, usage, environment, temperature, system configuration, loaded apps, features, power management settings and other factors.

28. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See http://www.windows.com/.

29. HP Privacy Camera only available with PCs equipped with HD or IR camera and must be installed at the factory.

30. HP-Tamper Lock must be enabled by the customer or your administrator.

31. World’s most secure and manageable PCs. Based on HP’s unique and comprehensive security capabilities at no additional cost and HP’s Manageability Integration Kit’s management of every aspect of a PC including hardware, BIOS and software management using Microsoft System Center Configuration Manager on HP Elite PCs and HP Workstations with Windows and 8th Gen and higher Intel® processors or AMD Ryzen™ 4000 processors and higher.
