Executive Biography

Shivaun Albright

Chief Technologist of Print Cybersecurity
HP Inc.

Shivaun Albright is HP's Chief Technologist for Printing Security. For more than a decade, Shivaun has defined the cybersecurity strategy for HP's printing and imaging fleet of devices. She has successfully led HP to become the industry's recognized leader in print security. Shivaun is one of HP's leading security experts and she holds numerous patents. In addition, she has five years of experience chairing an international standards committee focused on defining printing protocols.
